Application to Revive a Judgement of Twenty

Judge Grier yesterday delivered an opinion in the United States Circuit Court, in the case of Magniac and others vs. John R. Thompson. This was an attempt to revive a judgment of more than twenty years standing. A demurrer was filed and an argument had upon the demurer, and upon this the opinion was given. Mr. Thompson, many years ago, while perfectly solvent, settled upon his wife the property she brought him by marriage, with an addition from his own means. He subsequently became unfortunate in business, and the object in reviving the judgment to get possession of the property thus settled upon the wife. It was also sought to attach the means acquired by arrest, coupled with the release and voluntary discharge, operated as a discharge in bankruptcy. 3d. bill was therefore dismissed, with costs.

Philadelphia Sun 14th. POST OFFICE ENVELOPS .- The post-route bill passed by Congress contains a provision authorizing the the post-office department to cause envelops to be made, with suitable water marks on the paper, identifying them as official, and with a printed stamp, for single or double postage, with a suitable device. These envelops are to be sold at all the post-offices, at the price of the stamps now sold-with the very small addition of the actual cost of the envelops. This will enable persons to deposit their letters, prepaid, in the post-offices, at all hours, without trouble or inconvenience, and without the risk of having double postage charged on a letter, by reason of the stamp slipping off, by the time the letter gets in the office, if not before, as is too often the case now.

Mr. Webster is at Marsfield, and he doubtless advised with his friends as to this important movement, which had become necessary in order to preserve a whig party for future contests. The nomination of Gen. Scott recruited a new party from the whig ranks which had so long followed the fortunes of Clay and Webster. That new party, thus recruited, bears on every feature the impress of William H. Seward. It was really a defection, and we now have the whig party under the lead of Webster and Jenkins, and the Seward abolition party which uses Scott and

The owners of the Deleware subsequently brought suit for damages, but the court held she was in the wrong, and could not recover, from the fact that she had neglected to carry lights.

During a practice of more than twenty years, Dr. M'Lane had attended innumerable patients afflicted with every form of worm disease, and was induced to apply all the energies of his mind to the discovery of a vermifuge, or worm destroyer, certain in its effects; the result of his labors is the American worm Specific, now before the public, which is perfectly safe and may be given alike to children of the most tender age, or to the adult; it purges mildly and subdues fever, and destroys worms with invariable success. It is easy of administration and as it does not contain mercury in any form whatever, restrictions are necessary with regard to drinking cold water.
